EME ❤

Cardiology

QUALITY MEDICAL PRODUCTS COMPETITIVELY PRICED

QUALITY YOU CAN TRUST.

As a veteran owned company, we are proud to manufacture products at our own facility in the USA. Our products are held to the highest quality standards and are manufactured for direct sales. We also offer OEM products for distributors, equipment manufacturers and IDNs. High quality at an economical price - it's what we do every day.

TOUCH. FEEL. BELIEVE.

The only real way to understand the difference in EME quality is to hold a custom Holter/telemetry pouch, ice bag, infant cap, or fetal belt in your hand. With one touch you'll understand why customers across the nation choose EME and never go back. We'll gladly send you a sample today!

## NEED MORE REASONS TO CHOOSE EME?

- Order by phone, email, fax or EDI.

- Most orders ship within 48 hours of placement.

- Our processes are ISO 9001:2015 certified, an international quality certification.

- Our continuous attention to detail in our entire supply chain assures quality. You will always talk to a friendly, knowledgeable sales associate who is familiar with your account.

- Our Best Value Assurance means you get up-front prices that reflect the real cost of your department's products.

THE BEST PRODUCTS
For Better Heart Care

At EME we manufacture a quality line of cardiology products including custom Holter/telemetry kits, Holter/telemetry pouches and ice bags all made at our own facility in the USA. We also offer EME-branded monitoring electrodes and chart papers, as well as a full line of brand name cardiology supplies including Sony imaging papers. We can provide labeling and modify our designs to fit other types of mobile devices, just call us for your custom requirements.

At EME Company, we pride ourselves on continuous attention to detail in our entire supply chain, from manufacturing to vendor performance, distribution and after-sale service.

EKG ELECTRODES

Resting EKG Electrodes

- Hypoallergenic, gentle to the skin and repositionable
- Silver/silver chloride gel
- Large surface area provides enough adhesive to stay on but gentle enough to remove without irritation
- No preparation for most patients
- Size: 24mm X 33mm (with tab)

PRODUCT #	DESCRIPTION	QTY/POUCH	QTY/BOX	QTY/CASE
BS-2300	Ambu Tab Electrodes	100	500	5000
EME3000	EME Tab Electrodes	100	1000	4000

EME MULTI-PURPOSE

LT910 Series

- Soft diaphoretic foam with solid adhesive gel provides greatest stability
- Size: 36mm X 55mm

PRODUCT #	DESCRIPTION	QTY/POUCH	QTY/CASE
LT910	Best Value Electrodes	50	1000
LT910-5	Best Value Electrodes	5	1000
LT910-7	Best Value Electrodes	7	700

AMBU Butterfly & R Series

• Butterfly electrode designed for stress testing
• Reliable high tack adhesive wet gel foam electrode
• Quick set up time with lowest impedance
• Ideal for any adult short-term procedure
• Minimal skin prep required
• Foam tabs for lead wire stabilization and lift-off - no PVC

PRODUCT #	QTY/POUCH	QTY/BOX	QTY/CASE
R-00-S/25	25	500	1000
R-00-S/7	7	504	1008

EME2015 Solid Gel Foam Electrode

• EME high performance foam electrode with cured solid gel
• Great multi-purpose electrode for any procedure

PRODUCT #	QTY/STRIP	QTY/POUCH	QTY/CASE
EME2015-5S	5	30	1200

Leadlok Solid Gel Foam Electrode

• Soft foam electrode with non-irritating potassium chloride wet gel
• Fast signal response with low impedance
• Large adhesive contact area
• Lead stabilizer to prevent motion artifact

PRODUCT #	QTY/POUCH	QTY/CASE
EME506BL	5	550
EME706BL	7	700
EME30-06BL	30	900

RT430 Radiotranslucent Wet Gel Foam Electrodes

- Radiotranslucent, reliable and high tack adhesive foam wet gel electrode
- Small size with lift-off tab
- Size: 36mm diameter

PRODUCT #	QTY/POUCH	QTY/CASE
RT 430	30	300

EME10005 Wet Gel Foam Electrodes

- Small size with lift-off tab
- Quick set up time, low impedance
- Ideal for stress testing
- Great multi-purpose electrode

PRODUCT #	QTY/POUCH	QTY/CASE
EME10005-60	60	600

LT330 Cloth Electrodes

- Breathable cloth wet gel electrodes for long-term application.
- Soft, flexible, conforms to the body
- Open weave reduces skin irritation
- Low profile reduces snags on clothing
- Size: 39mm X 53mm

PRODUCT #	QTY/POUCH	QTY/CASE
LT-330	30	600

Telemetry / Holter Kits

We specialize in custom, made-to-order kits for Holter, telemetry, stress and cardiac event monitoring. Tell us which items you need and we'll assemble kits to your specifications-at or below bulk pricing. We even provide an assortment of disposable lead wires. Finally, choose from our variety of high- quality pouches to complete your kit. As always, we pack your kits when you need them so you're always guaranteed the freshest electrodes and batteries.

Call us for a quote today. We'll be glad to send you a free sample!

Whether you're short staffed or just looking to increase efficiencies, kits can save you critical time. From purchasing departments to patient care providers, medical professionals across the nation tell us our kits really make a difference saving valuable time and money!

Clear Front Pouch With Polyester Backing

- Large enough to accommodate multi-parameter transmitters and Holter recorders.
- Rugged, inner Polyethylene/Nylon liner provides extra liquid barrier.
- Clear front allows for easier viewing of digital displays.
- Hook & Loop closure helps secure transmitter and lead wires, reducing artifact.
- Inner size: 7" H X 5" W or 9" H X 5" W

PRODUCT #	DESCRIPTION	DIMENSIONS	QTY/CASE
3-P	Clear Front Polyester Backing with Clip	7"h x 5"w	100
3-PL	Clear Front Polyester Backing with Clip	9"h x 5"w	100
4-P	Clear Front Polyester Backing with 2 Top Ties	7"h x 5"w	100
5-P	Clear Front Polyester Backing with 4 Ties	7"h x 5"w	100
5-PL	Clear Front Polyester Backing with 4L Ties	7"h x 5"w	50
18-P	Clear Front Polyester Backing with Strings	9"h x 5"w	50

Polyethylene Pouch

- Protects the transmitter from fluids.
- Rugged Polyethylene/All Film provides extra liquid barrier. Our strongest pouch.
- Hook & Loop closure helps secure transmitter and lead wires, reducing artifact.
- Inner size: 6 1/2" H X 5" W

PRODUCT #	DESCRIPTION	DIMENSIONS	QTY/CASE
3-PZ	Pocket Pouch All Clear Film with Clip	6 1/2"h x 5"w	100
17-P	All Film with Strap	6 1/2"h x 5"w	100

Standard Foam Pouches

- Soft foam and flap closures are comfortable for your patient and help protect and secure the transmitter.
- Our standard size pouch fits most standard size monitors and includes a unique patient ID label that allows you to easily identify patient and recorder.
- Inner size: 6" H x 4" W

PRODUCT #	DESCRIPTION	DIMENSIONS	QTY/CASE
6-PB	Standard Size Foam Pouch with Strap	6"h x 4"w	100
6-PBS	Standard Size Foam Pouch with two Straps	6"h x 4"w	50
6PB-2	Standard Size Foam Pouch with two Straps	6"h x 4"w	75
7-PB	Standard Size Foam Pouch with Clip	6"h x 4"w	100

Compact Foam Pouches

- Compact pouch is ideal for small digital size monitors.
- Inner size: 3 3⁄4" H X 4" W

PRODUCT #	DESCRIPTION	DIMENSIONS	QTY/CASE
12-P	Compact Size Foam Pouch with Strap	3 3/4"h x 4"w	50
12-PBS	Compact Size Foam Pouch with two Straps	3 3/4"h x 4"w	25
13-P	Compact Size Foam Pouch with Clip	3 3/4"h x 4"w	50

Choose From A Full Selection of Products

BEST VALUE EME ELECTRODES

We provide a quality line of Best Value monitoring electrodes and EKG electrodes designed specifically for specialty procedures. In addition to being Latex Free, our high-performance electrodes are ideal for use as Holter electrodes and stress electrodes. All of our multi- purpose electrodes are suitable for any cardiology procedure. The economically priced EME2015-5S series work great for any short-term procedure. If your hospital requires a special contract, pick any of our branded electrodes.

EME POUCHES

We are the only manufacturer that can offer a variety of pouches for your Holter and telemetry kits. If you are using a pouch now, combine it with other components and take advantage of our special value kit rate.

The CDC and the Healthcare Infection Control Practices Advisory Committee recommends the use of single-patient equipment to reduce Hospital Acquired Infections. Our EME telemetry/holter pouch is a single-patient, disposable product that can help you greatly reduce the chances of HAI in your facility, saving you thousands of dollars in treatment and missed reimbursements.

SAFETY LEAD WIRES

Get 24" safety lead wires at better than best-kit pricing. It costs less to use fresh lead wires on each telemetry patient than it does to replace the reams of chart paper and deal with all of the false artifact that will occur due to fractured lead wires.
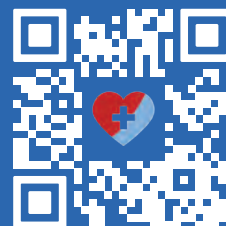

KEEP YOUR INVENTORY FRESH!

We don't make your kit until you order, assuring the freshest stock available. Plus, you only pay for components you want, at a price that makes sense.

REDUCE INVENTORY ITEMS

Take advantage of special value kit rates and assure that all the items you need are there when it's time to perform the procedure.
